**ACO Industrial Drainage**

## ACO. The future of drainage.

### The ACO system chain provides drainage solutions which meet the future needs of industries where hygiene is essential

In a food service environment, hot water, grease and organic waste must be counteracted by more complex and sophisticated drainage concepts. ACO achieves this with intelligent system solutions which optimise food safety, health and safety of employees and the protection of water. Every ACO product within the ACO system chain safely controls water as it passes along the chain to ensure it can be hygienically, economically and ecologically handled in a viable way.

## ACO slot channel

### Introduction

#### Introduction

#### ACO slot channel portfolio

The ACO slot channel range covers channels for all common applications and all common floor types (concrete, tiles, resin or vinyl). Selecting a channel from the range is easy. The unique variability of the whole portfolio allows choosing the right channel according to all customers' needs.

Channel's length, depth and outlet position are just a few of the parameters which can be varied and, regardless of the variations specified, there is no impact on delivery lead times.

#### ACO slot channel ordering

The dimensions of the ACO slot channel can be easily specified in respect of project requirements. To specify the channel please use the Customization template (see page 109) which will help you to identify the information needed or contact our Sales/Technical department.

#### ACO slot channel customization

In addition all ACO slot channel can be designed with:

- Special outlet position
- Special depth
- Special slope
- Special slot channel width
- L-shape and T-shape layout
- Special side inlets

To request customised ACO slot channel, please contact our Sales/technical department.

**ACO slot channel system overview**

**ACO slot channel - fixed height solution**

ACO channel

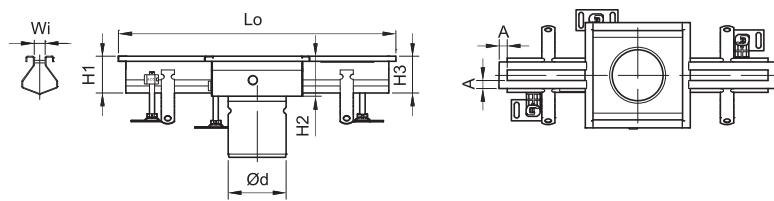

**ACO slot channel - telescopic solution**

**ACO slot channel - semi-standard****Product information**

The dimensions of the ACO slot channel for concrete, tiles and resin floor can be easily specified in respect of project requirements.

- Tested and certified according to EN 1253
- Available in 1.4301 (304) or 1.4404 (316L) grades of stainless steel, pickled and passivated
- 1.5 mm material thickness
- ACO slot channel 8 or 20 mm
- Length – up to customer request
- Longitudinal slopes of the channel bottom 1-5 %
- Standardized widths
- Outlet position central or variable in longitudinal axis
- Adjustable EasyFix levelling feet
- Anchors for fixing in concrete
- Protective cover available.  
See page 230 for more details

**Order information**

<b>External (overall) width</b> Wi [mm]	<b>Dimension of edge</b> A [mm]	<b>Length of channel</b>	<b>Height at outlet of channel</b> H2	<b>Height at end of channel</b> H1 and H3
20	15	Variable *	50-200	50-200
8	folded		50-200	50-200

\* The maximum transportable length of channel is 6 000 mm. Long channels over 6 000 mm are standardly divided in 6 m sections with transport joins.

## ACO customized slot channel

### Product information

The dimensions of the ACO customized slot channel for concrete, tiles and resin floor can be easily specified in respect of project requirements.

- Tested and certified according to EN 1253
- Available in 1.4301 (304) or 1.4404 (316L) grades of stainless steel, pickled and passivated
- 1.5 mm material thickness
- Slot of channel 8 or 20
- Length – up to customer request
- Longitudinal slopes of the channel bottom 1-5 %
- Outlet position central or variable in longitudinal axis
- Adjustable EasyFix levelling feet
- Anchors for fixing in concrete
- Protective covers available for gully tops. See page 230 for more details

### Instructions

Please define channel dimensions by filling out required entry fields.

### Step 1 - Material

Stainless steel grade 1.4301 (AISI 304)

Stainless steel grade 1.4404 (AISI 316L)

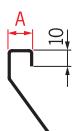

### Step 2 - Edge profiles

Detail of the Edge profile

**Standard**

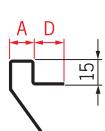

A	15	25
Rubber edge infill	<input type="checkbox"/>	<input type="checkbox"/>
Steel edge infill	<input type="checkbox"/>	<input type="checkbox"/>
No edge infill	<input type="checkbox"/>	<input type="checkbox"/>

**Folded**

**Extended**

A	15	25
Rubber edge infill	<input type="checkbox"/>	<input type="checkbox"/>
Steel edge infill	<input type="checkbox"/>	<input type="checkbox"/>
No edge infill	<input type="checkbox"/>	<input type="checkbox"/>

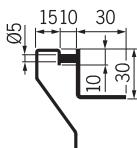

**Folded with flange**

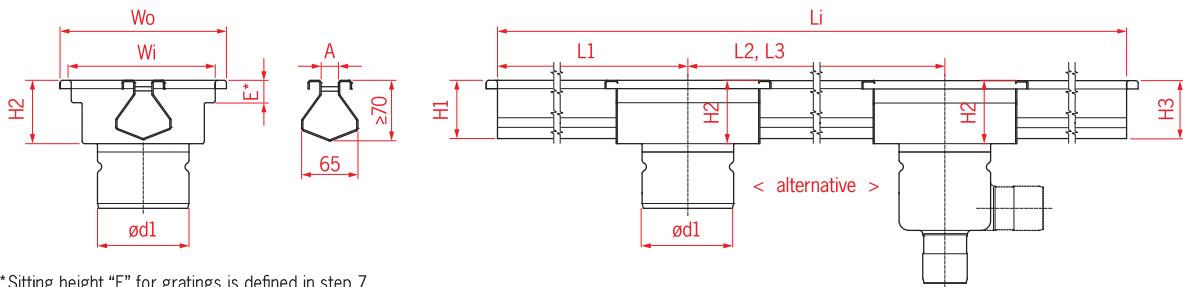

D	50	Custom
<input type="checkbox"/>	<input type="checkbox"/>	

**L profile**

### Step 3 - Channel dimensions

\*Sitting height "E" for gratings is defined in step 7

Gully top dimension Wo	Channel outlet d1	
200 x 200	75	<input type="checkbox"/>
200 x 200	110	<input type="checkbox"/>
200 x 200	125	<input type="checkbox"/>
250 x 250	142	<input type="checkbox"/>
300 x 300	200	<input type="checkbox"/>
Customized width		<input type="checkbox"/>

  

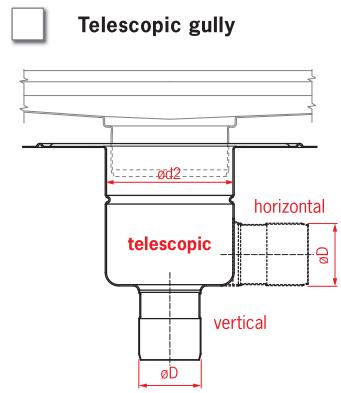

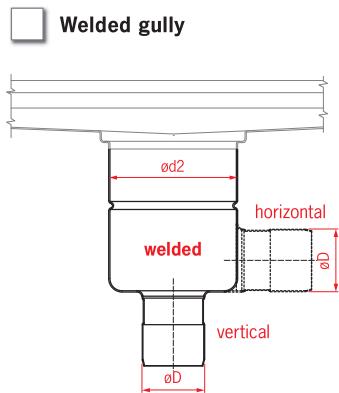

Slot dimension A	
8	<input type="checkbox"/>
20	<input type="checkbox"/>

20	<input type="checkbox"/>
25	<input type="checkbox"/>
30	<input type="checkbox"/>
40	<input type="checkbox"/>

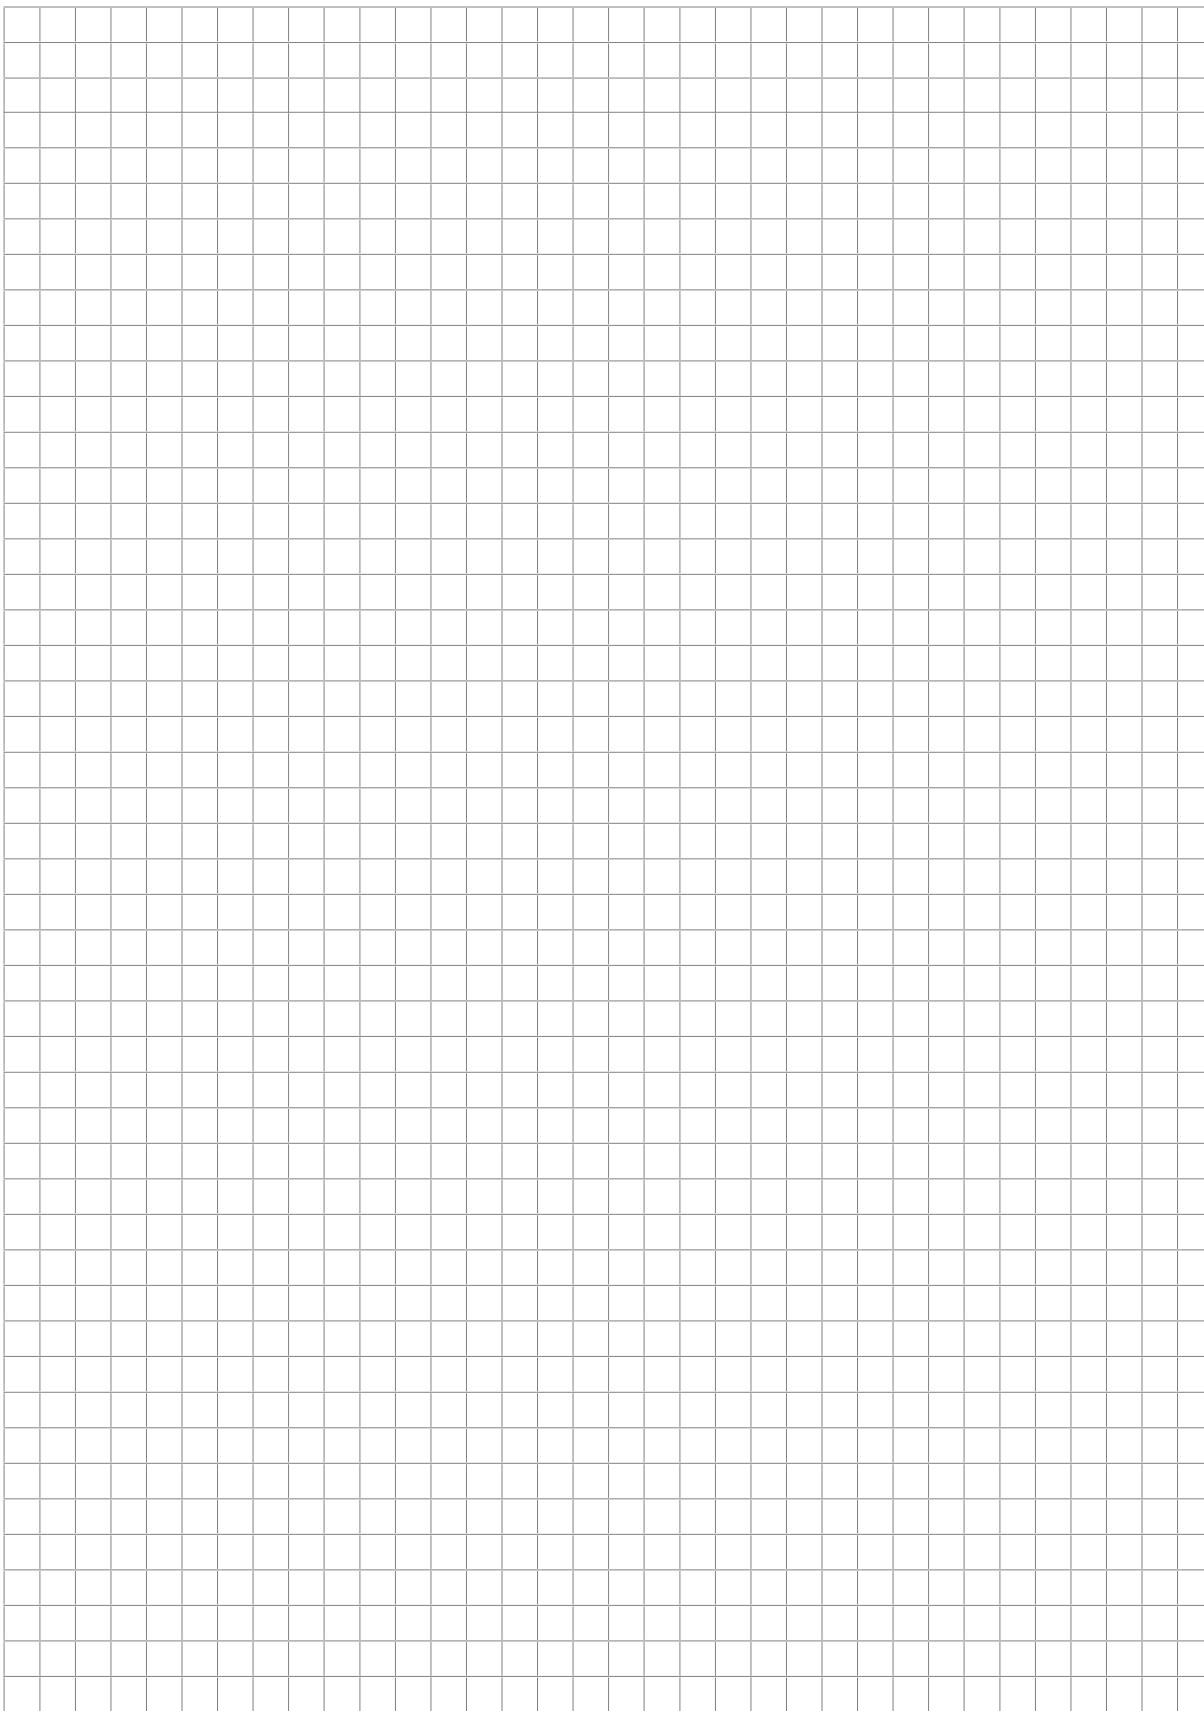

**Step 8 - Protective covers**

- With protective covers (Only available for outlet units)  
For more information about protective covers, see page 230.)

**Your specification/shape of the channel, outlet position**

---

**ACO channel**

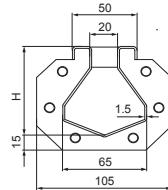

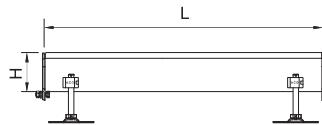

**ACO modular slot channel 20 - standard articles****Product information**

Ideal for wash-down applications or as a water break between designed wet and dry areas.

Modular concept allows specification of standard channel units to surround machinery and fit within existing tiling patterns.

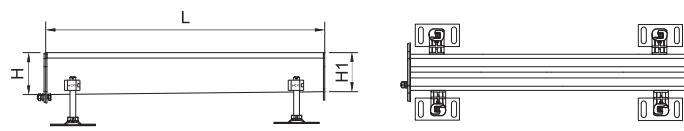

Vee-bottomed (V) profiled channel for enhanced flow efficiency at low flow rates and for improved self cleaning performance.

- Fully compliant to EN 1253
- Fully tested and classified to EN 1433
- Available in 1.4301 (304) or 1.4404 (316L) grades of stainless steel, Fully pickled and passivated
- Wide range of gratings for load class up to C 250 (EN 1433)
